

Neighbourhood Development Plan

Local Consultation Process

Please be advised that in 2020 we intended to commence a Local Consultation on the pre-submission Draft (Third Draft) of the Neighbourhood Development Plan (NDP), before its submission to the Buckinghamshire Planning authority for the final stages of the consultation process.

However due to the Covid restrictions that applied during the last 15 months, we were unable to comply with the conditions for Local Consultation (Regulation 14) as paper copies could not be made accessible to the general public in the Library and Council Offices.

We decided to hold an informal Consultation to allow as many people as possible to have the chance to provide their comments and notified Residents Associations attaching an electronic (PDF) copy.

Their responses resulted in an update to a fourth Draft which, after a review by the Buckinghamshire Planning Department, was then updated to a fifth Draft, which has been modified in Windows 365 for visually impaired accessibility.

This fifth Draft is currently being previewed by Buckinghamshire Planning Department and has been loaded on our website. It will be updated in response to their comments and submitted for their formal approval, after which we expect that they will implement the required formal Public Consultation on our behalf.
